THE HAPPY HEALER & THE HYBERVERSE

In the heart of the HyberVerse, where cosmic winds carry laughter and the stars shimmer with warmth, lives Henrietta, the ever-cheerful healer. With a heart as bright as a supernova and a touch that soothes even the most stubborn space-sprains, Henrietta is the glue that holds the Hyber Hoppers together. Whether it's patching up a scraped knee from a daring asteroid jump or brewing a revitalizing nebula tea, she ensures that every adventurer stays in top shape. Her presence alone is enough to lift spirits, and her giggle is said to have the power to make even grumpy moon beasts crack a smile.

Despite her soft and caring nature, Henrietta is always ready to leap into action when danger strikes. She carries a pouch of Star Puffs, tiny glowing orbs infused with healing energy, which she tosses to her friends in the heat of battle. She's also known for her Comet Hug, a special embrace that fills anyone with an instant surge of warmth and energy. No matter how chaotic a mission gets, Henrietta never panics—she simply hums a little tune, adjusts her glasses, and gets to work, proving that kindness and courage go hand in hand.

One of Henrietta's biggest dreams is to find the legendary Celestial Bloom, a rare flower said to have infinite restorative powers. With a hand-drawn map and an unshakable belief that every journey is worth the effort, she leads the Hyber Hoppers through dazzling stardust fields and luminous healing springs, always searching for new ways to help those in need. But to Henrietta, the true magic isn't just in the cures she creates—it's in the joy of seeing her friends happy, healthy, and ready for the next adventure.
